

Our Provider bottles have arrived

O-I New Zealand's specially created Provider bottles are now available. At O-I we're passionate about glass, and we're also passionate about craft beer, which is why we've created a special bottle to help Kiwi craft beer makers serve their products to the thirsty New Zealand and Asian markets.

Glass can take on a range of shapes, colours and textures. It's beautiful. It's memorable. It's iconic. You can feel its quality in your hand, that's why glass is at the core of building thousands of successful quality and premium brands

A bottle that loves craft beer

Crafted in New Zealand, just like your beer

Unique bottle shape

The large bottle is designed to reflect the Asian drinking culture of sharing

The smaller bottle is designed as a great tasting size

Available in 888ml and 518ml, lucky numbers in Asia

Designed in collaboration with students at Unitec Institute of Technology

Contact us now to take the new bottles for a spin.
