SPECIAL FEATURES

Since the introduction of the Mil-tek balers into Fonterra sites we have baled and diverted from landfill 3000 tonnes of card and paper plus 1000 tonnes of plastic over the last 3 years. We hope to double that this year - massive dollar savings not including revenue return for the baled product"

*Spring Humphries
National Eco Efficiency Manager
Fonterra*

Miltek are Danish made balers, providing waste solutions through reduction in waste to landfill, reduction in waste disposal costs, reduction in time, space and labour.

Miltek have over 200 machines currently sited and are making an environmental impact nationally reducing costs and waste to landfill.

Current clients include Fonterra, Nestle, Mainland, Pak'n Save, New World, Prolife Foods, The Warehouse, Tasti Products, Talleys Toops, Canpac, Ancare, Metropolitan Glass, Fullcircle.
